

The Smarter Way to Scan

Ensuring your PDFs are inclusive and compliant shouldn't require expensive software or complex installations. **Grackle GO is the browser-based lightweight, zero-setup document validation tool that provides rapid, actionable accessibility feedback.** Drag and drop your files to verify PDF/UA and WCAG compliance without a complex remediation workflow. Lower the barrier to accessibility adoption across your entire organization.

Key features of Grackle GO:

- **Zero-Install Browser Access:** Start testing immediately from any device with an internet connection—no software downloads or OS restrictions required.
- **Comprehensive PDF/UA Evaluation:** Automatically check your documents against **ISO 14289-1 (PDF/UA) standards** to ensure global accessibility.
- **Deep Tag Tree Analysis:** Gain full visibility into your document's framework with a **detailed view of properties and attributes** for precise troubleshooting.
- **One-Click Compliance Reports:** Generate **printable PDF/UA check summaries** to easily document, share, and verify your accessibility efforts.
- **Lightweight Validation Workflow:** Get **instant, actionable feedback** without the complexity of a full remediation suite, making it the perfect "top-of-funnel" tool for quick checks.

Why Choose Grackle GO?

Grackle GO removes the barrier to entry for digital inclusion by offering **universal access** to high-level validation tools for free. It is the only solution that combines the power of **machine-testable checkpoints** with the flexibility of a cloud-based environment. While other tools tie you to a desk, Grackle GO empowers you to **verify compliance on the fly**, providing a seamless upgrade path to the full Grackle ecosystem when you're ready to remediate at scale.
